

FOR IMMEDIATE RELEASE

Wayne Weber to Lead Regional Environmental Services Group in St. Louis for Burns & McDonnell

ST. LOUIS, Missouri — [Burns & McDonnell](#) has promoted [Wayne Weber](#) to lead the regional Environmental Services Group in [St. Louis, Missouri](#). A veteran environmental engineer and hydrogeologist with nearly 25 years of diverse experience, Weber has successfully led large-scale projects for clients nationwide.

“Wayne is one of the most versatile and knowledgeable environmental professionals within the industry,” says [Breck Washam](#), vice president and general manager for Burns & McDonnell in St. Louis. “His diverse experience and strong technical background make him the ideal leader to guide our regional environmental team, especially as we mobilize to provide robust, highly adaptive support to meet our clients’ unique needs amid the current global crisis.”

Within the past five years at Burns & McDonnell, Weber has designed, constructed and managed the operation, monitoring and maintenance of major remediation systems in nine states. Additionally, he has planned and implemented site investigations to characterize soil, groundwater, surface water and sediment conditions at a variety of facilities, including several Superfund sites.

“I’m proud to lead our experienced professionals dedicated to proactively delivering safe, efficient and cost-effective projects across the U.S.,” Weber says. “Our team’s ability to provide a comprehensive suite of integrated planning, design and construction services enables us to overcome the industry’s most pressing challenges now and in the future.”

Weber is a member of the National Groundwater Association and the Interstate Technology & Regulatory Council’s Remediation Management of Complex Sites and Implementing Advanced Site Characterization Tools teams. He is a licensed professional engineer in Illinois, Iowa, Missouri and Utah and a registered professional geologist in Arkansas and Missouri.

Backed by a nationwide team, the Environmental Services Group in St. Louis provides a full suite of services including:

- Environmental Health & Safety Compliance
- Remediation
- Air Quality & Noise
- Environmental Studies & Permitting
- Solid Waste & Resource Recovery
- Natural & Cultural Resources

- Environmental Engineering
- Stakeholder Management
