

**FOR IMMEDIATE RELEASE****Burns & McDonnell Hiring Top Talent in Larger Greenville Office to Deliver Design-Build Services**

GREENVILLE, South Carolina — Burns & McDonnell has moved into a larger office in Greenville to empower growth of the team delivering integrated design-build services in the region. The Greenville office location is one of seven mid-Atlantic offices for Burns & McDonnell, which has more than 70 offices in the U.S. and abroad.

Having relocated its Greenville office to a larger space at 80 International Drive, the firm now has room for more than 130 engineers, construction and craft professionals, architects, planners, technologists, and scientists to deliver projects. The 100% employee-owned firm is building on regional growth in consumer products, advanced manufacturing, industrial sectors and many other areas.

“Our clients need engineering, architecture and construction solutions of every kind to be competitive and provide innovative solutions for their customers. We are proud to be hiring the professionals needed to deliver these solutions,” says [Trevor Jones](#), global facilities project manager at Burns & McDonnell. “Burns & McDonnell has a history of proudly implementing project solutions for local and national clients and our growth in the region will allow us to better serve the surrounding communities for years to come.”

The larger office will accommodate growth for the Greenville team, with more than [two dozen positions](#) already open for engineering, architecture, construction and environmental professionals. Together, they will strengthen teams delivering projects in the life sciences, advanced manufacturing, consumer products, electrical transmission and distribution and water industries.

“I’m excited our firm is expanding in Greenville to double down on our commitment to providing excellent client service for our regional and national clients,” says [Mike Glenn](#), consumer products regional manager at Burns & McDonnell. “This office will play a crucial role in the growth of our firm’s manufacturing group.”
